

## QUASH

### GENERAL DESCRIPTION

An innovative system designed for the pre-wash removal of grease and lipstick from glassware.

QUASH® is a revolution for your glasses. It instantly removes grease and lipstick marks from all your glassware and leaves a rejuvenated shine.

The benefits of the system are:

Saves time and money  
Reduces customer complaints  
Non-electrical, compact and free standing

Hygienic pre-wash application  
Prevents hard water build up  
Less handling, therefore less breakage, extends the life of glassware  
Does not deviate from your normal glasswashing procedure  
Tried and tested by major brewers

Suitable for all glasses

Simple, easy to use.

A simple solution to a quality control problem for less than the price of one pint per week. No bar is complete without one!

### PHYSICAL CHARACTERISTICS

QUASH® is non hazardous detergent system which when used in conjunction with the applicator supplied will effectively remove grease and lipstick from glassware.

### APPLICATION

QUASH® is designed for use as a pre-wash treatment for glassware to remove grease and lipstick prior to washing. It is particularly effective on the rim area of the glass.

QUASH® is easy to use. Simply twist your upturned glass in a solution filled foam pad and your glass is ready for washing in the normal way.
